Sake

Yukyu no Umeshu (8cl) 11

Umeshu is a well-known digestif based on the typical Japanese Nanko plums. Lushly fruity on the nose, but with a nice fresh touch that provides some balance. Ideal as an accompaniment to a beautiful dessert, or a perfect ending on the rocks.

Azuma Rikishi (8cl) 10

The Japanese limoncello. The typical yuzu citrus fruit is characterized by a fantastic fresh aroma and a little bit of bitterness. This sake is sweetened with honey from own production, instead of the cane sugar used by most producers, and this provides a beautiful drinking experience. Fresh but light, everything you expect from an ideal digestif.
